Experience with: C#, Ruby/Ruby on Rails, ASP.NET, MongoDB, RabbitMQ, Kubernetes, Docker, AWS

Work History

2019-03 - 2020-03

Senior Engineer

Fevo, New York, NY

- Lead developer for e-commerce team on a new seat level selling project, coordinating between multiple teams to implement a new buy/sell flow with a projected revenue impact of over \$1M
- Owned development of first e-commerce cart timers for Fevo Cart. Coordinated 3 developers and implemented a modular and performant UI/UX that maintains cart consistency between time zones and across all Fevo Cart UIs
- In 3 weeks, rebuilt and re-documented Fevo Promo Code implementation to match product spec, utilizing TDD to eliminate bugs. In the process eliminated over 20% of customer support requests
- Integrated multiple applications with third party feature flag client to support A/B testing and improve ability for developers to get features into production and verification

2016-06 - 2019-03

Software Developer & Team Lead

H.Bloom, New York, NY

- Lead developer of new greenfield event driven order fulfillment system. Led discussions of API design, communication protocols, and main contributor to multiple aspects of product implementation
- Implemented first florist PCI compliant credit card entry system, which allowed clients to enter billing information themselves and allowed collections teams to improve quality control across our deliveries and subscriptions
- Deprecated legacy subscription creation system in favor of more robust API and UI with goal of supporting bulk asynchronous subscription creation - saving sales representatives hours every day
- As team lead, conducted one-on-ones and was primary point of contact for business stakeholders. Owned all technical priorities and timelines, ensuring business and tech teams were aligned on priorities and product delivery timelines

2016-12 - 2017-03

Teaching Assistant, WDI Remote

General Assembly, New York, NY

- Evening TA supporting students completing remote web development immersive

2013-03 - 2015-10

Product Manager / Lead Analyst

Bloomberg Sports LLC (Acq. By STATS LLC), New York, NY

- As product manager, led development, planning, and support efforts for baseball enterprise web, mobile, and desktop applications
- As lead analyst, provided statistical analysis reports to MLB clubs

2011-02 - 2012-12

Baseball Operations Internships

Miami Marlins & Tampa Bay Rays

- Worked as an intern in the baseball operations departments of the Miami Marlins (2012) and the Tampa Bay Rays (2011)

Community Experience

IYA Board Member

- Served on the immigrant youth ally board for Atlas:DIY from September 2017 until their closing December 2019

Delta.NYC Pro Bono Civic Hall Labs

- Donated my experience in tech for 2 structured 8-week programs where technical teams provided their expertise pro bono to a selected non-profit
- Session 2: Led development effort to build the first website for the foundation associated to the NYC Department of Sanitation
- Session 1: Provided technical support and technical survey tool research findings to Resilience Advocacy Project

Open Source Contributions

- Handful of contributions to 18F and Backbone.js, submitted during structured Hackathons

Certifications

2015-09

Pragmatic Marketing: Foundations, Focus & Build Workshops

Education

2007-09 - 2010-12

Bachelor of Arts: Hispanic Languages And Literatures

George Washington University, The - Washington, DC

- Graduated early with 3.3 GPA
